GWTC ANNOUNCES NEW BOARD MEMBER & SECRETARY – Nov. 9, 2018

The Government Wireless Technology & Communications Association (GWTC)¹ is pleased to announce that Tim Trager of San Bernardino County, California has been elected to join the Board of Directors. In addition, existing Board Member Kyle Connor of Cisco Systems has been elected Secretary of the Board.

Tim Trager is Deputy Division Chief in San Bernardino, where his duties include responsibility for the public safety radio system in the largest county in the country. Tim also has experience as a First Responder, having served in the California Fire Service for nearly 20 years. Tim's subject matter expertise extends to the operational, technical, policy and financial aspects of wireless systems, mobile broadband connectivity, dispatch center configurations, in-building wireless signal enhancement, as well as communication and network disaster preparedness with an emphasis in survivability and recovery practices.

“We are excited to have Tim on our Board,” said Andrew Maxymillian of Blue Wing Services, President of GWTC. “Tim's input was the impetus behind GWTC's workforce education initiative. Adding Tim's public safety wireless communications expertise to our organization will benefit our efforts tremendously.”

Kyle Connor has been a Board Member since early 2018. “Kyle's willingness to take over this important role demonstrates Cisco's commitment to GWTC,” said Maxymillian, “and their belief in our mission.”

¹ GWTC is a non-profit trade association created to advocate on behalf of government and non-government users of wireless technology and communications in the public service industries, such as public transit. GWTC's membership includes government agencies, manufacturers, engineers and consultants working on a variety of issues impacting represented users.
